Vostro 5410 Laptop
Feature Overview

Vostro means business

Work in style: Starting at 3.15lbs (1.43kg)*, A sleek aluminum finish gives the Vostro 5410 & 5415 a professional look, so you'll put your best foot forward no matter where your work takes you.

Powerful processing: Tackle your workday with the power of up to 11th Gen Intel® Core™ processors and enjoy sharper visuals in PowerPoint and video editing thanks to optional NVIDIA® MX450 (25W) + 2GB G5 graphics card (5410).

Built to last: Business can be unpredictable, that's why the Vostro 5410 offers a reliable design that passed 15 military-grade tests with an 810H certification** to ensure your laptop stays protected as you work.

Size is key: A spill-resistant keyboard with larger pitch keys give users added typing comfort so you can stay productive.

Easy to upgrade: If your work calls for it, the Vostro 5410 offers expandability options so you can upgrade your RAM for a faster performance.

Give your productivity a boost

Keeps its cool: A redesigned thermal system unleashes the power of your device while also preserving it's thin design. Dual heat pipes move heat away from your CPU and GPU, a larger fan and more fan blades move more air, and a drop-hinge allows air to circulate underneath your laptop.

Peace and quiet: With a fluid dynamic bearing system, your laptop's fan is not only long-lasting, but it also runs quietly while keeping your device performing at it's best.

Narrow borders: Minimize your distractions and get more done with a 4-sided narrow border that maximizes the surface area of the 14-inch screen. Maximum surface area means greater productivity.

Charge up: Charge your device up to 80% in an hour with ExpressCharge*** for worry-free battery performance that won't keep you tethered to an outlet.

Concentrate with comfort: Enjoy the optional Dell ComfortView Plus (5410 only), a certified**** TUV Rheinland Hardware Low Blue Light solution that reduces harmful blue light emissions. It's designed to optimize eye comfort even over extended viewing periods- like those long workdays leading up to a deadline. Additionally, because it is a hardware-enabled solution, low blue light is reduced without sacrificing true-to-life colors. (Not available in all regions)

Low blue light: This TÜV Rheinland certified laptop with Dell ComfortView software technology helps reduce harmful blue light emissions to make extended screen time easy on your eyes.*****

Superior security

Prioritize privacy: The privacy shutter ensures no one can see you while the HD webcam isn't in use, so you're protected from accidental embarrassments.

TPM 2.0: The Trusted Platform Module 2.0 is a commercial-grade security chip installed on the motherboard that creates and stores passwords and encryption keys. It verifies that the computer has not been tampered with before booting up and protects your data against external software attacks.*

Simple & secure: The optional fingerprint reader with Windows Hello allows you to easily and securely log in with just one touch.

A better way to video conference

Crystal-clear camera: The high-quality 2.7mm HD camera lets you converse face to face in vivid detail while ensuring the entire image is in precise focus.

Clearer quality: SmartByte software ensures video-conferencing applications receive network bandwidth priority over other applications, so every business call features outstanding clarity.

*Not available in China.

Vostro 5410 Laptop **Feature Overview Continued**

Unite your devices with Dell Mobile Connect

Stay focused and connected: Stay focused on tasks by interacting with your phone directly from your Dell PC– you can easily make calls, send texts, and get notifications.

Transfer files seamlessly: Transfer files, photos, videos, music, and documents between your PC and phone without complicated cloud storage or cumbersome cables.

Mirror Device to PC: Project your Android or iOS device screen onto your PC and interact with apps there.

Maintain your privacy: Your phone connects to your PC via Dell Mobile Connect's point-to-point, secure connection so your data is never exposed via unsecure internet connections.

*Dell Mobile Connect is available on all new Bluetooth-enabled, Inspiron, Vostro, G-Series, Alienware and Consumer XPS devices with Windows 10. Dell Mobile Connect's smartphone Companion App must be downloaded from the App Store for your smartphone, and requires Android 6 (or above) or iOS 11 (or above). For iOS, file transfer capabilities are limited to photos and videos.

NOTES:
Hard Drives: GB means 1 billion bytes and TB equals 1 trillion bytes; actual capacity varies with preloaded material and operating environment and will be less.
Graphics & System Memory: GB means 1 billion bytes and TB equals 1 trillion bytes; significant system memory may be used to support graphics, depending on system memory size and other factors.
Battery life figures are based on testing using the Mobile Mark 2014 battery life benchmark test. For more information about this benchmark test, visit www.bapco.com. Test results should be used only to compare one product with another and are not a guarantee you will experience the same battery life. Battery life may be significantly less than the test results and varies depending on your product's configuration, software, usage, operating conditions, power management settings and other factors. Maximum battery life will decrease with time and use.
Watt Hour (WHr) - The stated Watt Hour (WHr) is not an indication of battery life.
Notebook Weight: Weights vary depending on configuration and manufacturing variability.

DELL

Optional Vostro accessories

You can maximize the versatility and performance of your Vostro Family Laptops with Dell recommended accessories to get the best user experience for your business needs.

Dell Pro Briefcase 14 - PO1420C 14''
The eco-friendly Dell Pro Briefcase 14 (PO1420C) protects your laptop from impact with shock-absorbing EVA foam encased in a durable water resistant outer skin.

Dell Mobile Adapter Speakerphone - MH3021P
World's first multiport adapter with integrated speakerphone offers an all-in-one connectivity and conferencing solution.*
*Based on Dell analysis, March 2020.

Dell 27 Monitor - E2720HS
Upgrade your daily workflow with a space-saving, 27" FHD monitor featuring a height-adjustable stand and integrated speakers.

Dell Universal Dock – D6000
Connect up to three displays* at 4K resolution or a single display at 5K resolution with USB-C and enjoy a clean desk experience with a single USB-C cable for video, data, audio, and power**
*Dual 4K displays with USB3.0
**Up to 65W

Dell Multi-Device Wireless Keyboard & Mouse Combo - KM7120W
Designed to work seamlessly across 3 devices, this compact combo keeps your desk clutter-free and lets you stay productive with up to 36 months* battery life.

Dell USB-C Mobile Adapter - Slayer 3 MLK - DA310
Small and portable 7-in-1 USB-C mobile adapter provides superb video and data connectivity and supports up to 90W power pass-through.
